

1100W THICKNESSER 317MM

TPT125

Offering the full 317mm cutting width, Tritons high performance planer / thicknesser delivers 17,500 cuts per minute for a high quality, consistently smooth finish to the workpiece.

Large infeed and outfeed tables for added material support for longer workpieces and a capacity for timber from 3.2mm up to 150mm depth.

The 4-post column design provides rigidity and allows the cutter head to be raised and lowered smoothly and accurately for precise results.

TECHNICAL PERFORMANCE

No Load Speed:	8750min ⁻¹
Cuts per Minute:	17,500cpm
Planing Height:	3.2 – 152mm
Max Planing Width:	317mm
Min Planing Length:	380mm
Max Planing Depth in a single pass:	2.4mm
Table Size:	317 x 600mm

LARGE INFEED & OUTFEED

Large infeed & outfeed tables provide support for longer workpieces

ACCURATE CUTTING DEPTH

Easy & accurate setting of cutting depth with 1.6mm full crank rotation increments

REVERSIBLE BLADES

Calibrated drum with reversible blades achieves smooth finish & longer blade life

Powerful 1100W motor with overload protection delivers 17,500 cuts per minute

Top roller supports manoeuvrability when handling longer timber back to the infeed

Crank handle adjusts precise planing height with 1.6mm increment in a complete rotation

4-post column design increases rigidity & accuracy in setting depth of cut

Dual reversible-bladed drum is pre-calibrated & achieves a consistently smooth finish

Maximum 2.4mm depth of cut & accurate depth gauge allow precise planing

Large infeed & outfeed tables support longer workpieces up to 317mm wide

Dimensions (L x W x H):	590 x 370 x 490mm
Weight	22.2kg

"My first Triton power tool and I am so very impressed with the quality, ease of use and finish produced by the thicknesser. A great value for money purchase"

Noel S

WHAT'S IN THE BOX

1 x TPT125 Thicknesser 317mm
1 x Crank Handle
1 x Dust Chute
1 x Hex Key
2 x Blade Magnets
1 x Instruction Manual
